

## NEW SCHOOL CHÝNĚ - ARCHITECTURAL DESIGN CONTEST

**Instead of the basic tender, which is still being used in the most cases of public procurements in the Czech Republic, the municipality of Chýně chose to take the path of the best architectural solution and quality for their new school – through international architectural design contest.**

A school is a building that is built once in about 300 years. The selection of the best design for school in Chýně will be in the hands of the jury of international architectural competition: the architects Pavel Nasadil, Gabu Heindl from Austria, Martina Buřičová and Ondřej Píhrt and representatives of the municipality, Mayor Anna Chvojková, Vice-mayor Petra Vacková and Petr Štěpánek. The jurors have invited to their evaluation meeting starting on Friday May 1st Jan Žemlička, specialist on the building environment.

In Chýně, they would like to start the school year 2017/18 already in the new school. The municipality has already been approved for funding of the new building from the subsidy subprogram 298 213 of the Ministry of Finance. Immediately after the design contest negotiations with the awarded authors will be held, so that the selected team of authors can start working on finalization of the proposal and other projection work this summer.

61 competition entries in total were submitted to the international architectural design contest for new school in Chýně.

The results will be officially announced on May 13<sup>th</sup> at the municipal office of Chýně at 5 pm. Together with announcement of the results the exhibition of all the design proposals will be opened. You are cordially invited.
